

## Bio

Deep bass lines, spheric melodies and sharp hats characterize the sound of Finch. The now 23 years old producer and DJ from Basel (CH) discovered the world of electronic music at a very young age and has since then developed not only his brand but also his productions to a professional level. Having already taken over the local club scene, he had the chance to share the decks with namens such as Dubfire, Mind Against, Artbat, Gui Boratto, Coyu and many others\* and is very motivated to take his career to the next level.
